Sonance Receives EDGE Award for Exhibit Design and Graphic Excellence

San Clemene, CA—June 2007— Sonance, the company that brought you the first in-wall loudspeaker, recently received Exhibitor Magazine's top honor — the EDGE Award for Exhibit Design and Graphics Excellence in their 21st Annual Exhibit Design Awards!

The 50' x 80' exhibit featured at the 2006 Custom Electronic Design and Installation Association Expo (CEDIA) prominently displayed a three-dimensional representation of the company's new logo. Four 11-foot tall cubes, in all manufactured from aluminum rose upwards of 20 feet containing the new corporate color configuration. The design-conscious structure, which strongly emphasized color, strong form, lighting and simplicity garnered strong approval from the judges to earn the accolade.

Sonance captured the award by beating out nearly 200 other entrants from a dozen foreign countries.

About Sonance Headquartered in San Clemente, California, Sonance was founded by Scott Struthers and Geoff Spencer who introduced the world's first in-wall loudspeaker system to the consumer electronics market in 1982. With distribution in 45 countries around the world, Sonance remains at the forefront of technology by offering innovative design solutions that harmoniously blend sound with designs favored by leading custom integrators, architects, interior- design professionals, and design-conscious clients throughout the world.

For further information visit www.sonance.com or contact the company at 212 Avenida Fabricante, San Clemente, CA 92672, Telephone: 800-582-0771.
